The diagram illustrates a multi-ported bus system. On the left, two masters are shown, each with a vertical stack of three components: a top box labeled **BYE**, a middle box labeled K1 or K2, and a bottom box labeled **BYE**. On the right, a single slave is represented by a vertical stack of three boxes: a top box labeled **BYE**, a middle box labeled K3, and a bottom box labeled **BYE**. A horizontal line representing the bus connects the middle boxes (K1, K2, and K3) of all three devices. The bus line is shown as a single line on the left, which then splits into three separate lines, each connecting to one of the middle boxes (K1, K2, and K3).
